

## CONNECT

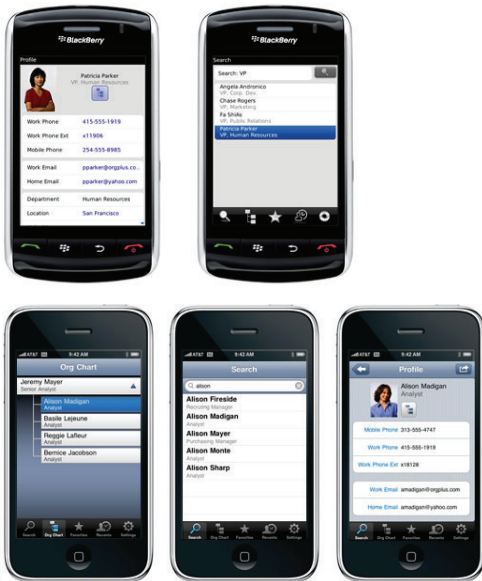

**Provide secure, company-wide access** to corporate directories and org charts through seamless portal integration and mobile apps. Increase employee productivity and managerial insight with access anytime, anywhere.

# CONNECT

Use Connect's advanced searching capabilities to locate colleagues based on work location, role, department and more.

Access your employee directory on the go from your iPhone or Blackberry. Launch a call or email directly from the application.

HumanConcepts' Connect empowers employees across your organization to leverage the critical HR information they need - quickly, efficiently and securely. At-a-glance access to visual org charts means employees can understand the organizational structure, contact the right colleagues, complete projects, and solve problems in a timely manner. Easily integrated with the corporate intranet or portal, Connect lets people access organizational information where they want when they want, from workstations or mobile devices.

At the employee level, Connect provides a visual corporate directory that enables everyone to easily find the right contact information and understand individuals' roles in the context of the organizational hierarchy. When employees can instantly see departments, functions, and who reports to whom, they can quickly identify resources and work more efficiently. Role-based security ensures specific employee data is seen by only those authorized to see it.

For managers who want to work smarter not harder, Connect provides efficient access to detailed team data so they can analyze key metrics and make optimal organizational decisions. Insight such as headcount, competencies, performance, budgets and more is delivered to them securely through their portal or mobile device.

*"Mobile devices promise to transform the user experience with HCM applications, and to change the nature of self-service"*

**Jim Holincheck**  
 Managing VP, Gartner Research  
 "Key Issues for Human Capital Management Software, 2011"

# CONNECT

## Why You Need Connect

- You will quickly and easily integrate workforce visualization with existing corporate intranets and portals without requiring additional systems.
- You will boost workforce productivity via secure, role-based access to accurate contact and information that helps colleagues collaborate, problem solve and complete projects.
- You will give managers the power to analyze detailed team metrics (e.g., headcount, competencies, performance, budgets) to make optimal organizational decisions.
- You will help employees better understand their individual roles and responsibilities within the context of the corporate hierarchy.
- You will grant fast mobile access to corporate org charts and contact information for on-the-go collaboration and problem solving.

## Benefits

- **Productivity**  
At-a-glance, visual org charts give managers and employees secure, role-based access to contact information and metrics needed to navigate the organization and make optimal organizational decisions.
- **Understanding**  
Detailed, at-a-glance team information helps employees understand individual roles and responsibilities within the context of the corporate hierarchy while giving managers better insight to make informed decisions.
- **Mobility**  
Allows access to corporate org charts and contact information directly from smart phones for on-the-go collaboration and problem solving.
- **Integration**  
Easily deploys to existing corporate intranets or portals, giving employees secure access without requiring additional sign-ons.
